

# CURRICULUM VITAE

**SURNAME:** Kamnev

**FIRST NAME(S):** Alexander A.

**Official address:** Institute of Biochemistry and Physiology of Plants and Microorganisms, Russian Academy of Sciences (IBPPM RAS), 13 Prosp. Entuziastov, 410049, Saratov, Russia  
**Telephone:** +7-(8452)-970403; **Fax:** +7-(8452)-970383; **E-mail:** [aakamnev@ibppm.ru](mailto:aakamnev@ibppm.ru), [a.a.kamnev@mail.ru](mailto:a.a.kamnev@mail.ru)

**Date and place of birth:** 17 December 1958, Saratov, Russian Federation **Nationality:** Russian

## **Education (degrees, dates, universities)**

MS (chemistry), 1980, Saratov State University, Russian Federation;  
PhD (physical chemistry), 1992;  
DSc (physical chemistry), 2002, Saratov State University

## **Career/Employment (employers, positions and dates)**

IBPPM RAS, Saratov: Leading Scientist (2003 – present); Senior Scientist (1996 – 2003); Scientist (1992–1996);  
Scientific Research Institute of Chemistry at Saratov State University, Research Associate; Scientist (1980–1992).

## **Specialization**

**(i) Main field:** Molecular mechanisms of plant-bacterial interactions and signalling; plant-growth-promoting rhizobacteria; Azospirilla.  
**(ii) Other fields:** Physicochemical aspects of rhizosphere processes involving metal ions.  
**(iii) Current research interests:** Development and applications of novel spectroscopic and nuclear chemistry approaches in biochemical and microbiological research.

## **Honours, Awards, Fellowships, Membership of Professional Societies**

Personal grant from Int. Sci. Foundation (New York, USA), 1993; Grant (team leader) from the Russ. Foundation for Basic Research (Moscow), 1995–1996; Grant (team leader) from the Russ. Acad. of Sciences' Commission (2000–2003); Grant (team leader) from INTAS (EC, Brussels, Belgium), 1997–2000; UNESCO Short-term Fellowships in biotechnology (1998, 2000, 2002); EMBO Short-term Fellowship in molecular biology (2001); NATO Expert Visit Grants (visiting expert, 1999; 2003, 2005); NATO Collaborative Linkage Grants (Partner-Country Coordinator, 2001–2003; 2004–2006).

**Member** of the Russian Microbiological Society (FEMS Constituent Society); Russian Society of Biochemists and Molecular Biologists (FEBS Constituent Society).

**Personal participation** in FEMS Council Meetings (as Deputy Delegate from the Russian Microbiological Society): Jerusalem, Israel, 1996; Budapest, Hungary, 1999.

**Personal participation** (with presentations) in 46 international conferences (1989–2007), including 31 oral presentations and 6 invited lectures.

**Knowledge of foreign languages:** Fluent English (colloquial and written).

## **Publications (list of selected publications given on separate pages):**

- **Number of papers in refereed journals:** 75.
- **Number of communications to scientific meetings:** 132 (full papers and abstracts).
- **Books:** 6 (invited chapters).

## List of Representative Publications by Dr. A.A. Kamnev for the last 10 years

- A.A.Kamnev**, Perfiliev, Y.D., Kulikov, L.A., Tugarova, A.V., Kovacs, K., Homonnay, Z., and Kuzmann, E. 2017. Cobalt(II) complexation with small biomolecules as studied by  $^{57}\text{Co}$  emission Mossbauer spectroscopy. *Spectrochimica Acta Part A: Molecular and Biomolecular Spectroscopy*. 172: 77–82.
- Tugarova, A.V., Scheludko, A.V., Dyatlova, Y.A., Filip'echeva Y.A., and **A.A.Kamnev** 2016. FTIR spectroscopic study of biofilms formed by the rhizobacterium Azospirillum brasiliense Sp245 and its mutant Azospirillum brasiliense Sp245.1610. *Journal of Molecular Structure*. DOI: 10.1016/j.molstruc.2016.12.063.
- A.A.Kamnev**, Mamchenkova P.V., Dyatlova Y.A., and Tugarova A.V. 2016. FTIR spectroscopic studies of selenite reduction by cells of the rhizobacterium Azospirillum brasiliense Sp7 and the formation of selenium nanoparticles *Journal of Molecular Structure*. DOI: 10.1016/j.molstruc.2016.12.003.
- Kovacs, K., **A.A.Kamnev**, Pechousek, J., Tugarova, A.V., Kuzmann, E., Machala, L., Zboril, R., Homonnay, Z. and Lazar, K. 2016 Evidence for ferritin as dominant iron-bearing species in the rhizobacterium Azospirillum brasiliense Sp7 provided by low-temperature/in-field Mossbauer spectroscopy. *Analytical and Bioanalytical Chemistry*. 408: 1565–1571.
- A.A.Kamnev**, Tugarova, A.V., Kovacs, K., Kuzmann, E., Homonnay, Z., Kulikov, L.A. and Perfiliev, Y.D. 2015 Mossbauer spectroscopic study of iron and cobalt metabolic transformations in cells of the bacterium Azospirillum brasiliense Sp7. *Bulletin of the Russian Academy of Sciences. Physics* 79: 1036-1040
- A.A.Kamnev**, Calce, E., Tarantilis, P.A., Tugarova, A.V., De Luca, S. 2015 Pectin functionalised by fatty acids: Diffuse reflectance infrared Fourier transform (DRIFT) spectroscopic characterisation. *Journal of Molecular Structure* 1079: 74-77.
- Tugarova, A.V., Kazakova, A.N., **A.A.Kamnev** and Zlotskii, S.S. 2014. Synthesis and bactericidal activity of substituted cyclic acetals. *Russian Journal of General Chemistry* 84: 1930-1933.
- Alenkina, I.V., Oshtrakh, M.I., Tugarova, A.V., Biro, B., Semionkin, V.A. and **A.A.Kamnev** 2014. Study of the rhizobacterium Azospirillum brasiliense Sp245 using Mossbauer spectroscopy with a high velocity resolution: implication for the analysis of ferritin-like iron cores. *Journal of Molecular Structure* 1073: 181-186.
- Tugarova, A.V., Vetchinkina, E.P., Loshchinina, E.A., Burov, A.M., Nikitina, V.E., **A.A.Kamnev** 2014 Reduction of selenite by Azospirillum brasiliense with the formation of selenium nanoparticles. *Microbial Ecology* 68: 495-503.
- A.A.Kamnev**, Dykman, R.L., Kovacs, K., Pankratov, A.N., Tugarova, A.V., Homonnay, Z., Kuzmann, E. 2014 Redox interactions between structurally different alkylresorcinols and iron(III) in aqueous media: frozen-solution  $^{57}\text{Fe}$  Mossbauer spectroscopic studies, redox kinetics and quantum chemical evaluation of the alkylresorcinol reactivities. *Structural Chemistry* 25: 649-657.
- Tugarova, A.V., Burov, A.M., Burashnikova, M.M., **A.A.Kamnev** 2014 Gold(III) reduction by the rhizobacterium Azospirillum brasiliense with the formation of gold nanoparticles. *Microbial Ecology* 67: 155-160.
- A.A.Kamnev**, Tugarova, A.V., Kovacs, K., Biro, B., Homonnay, Z., Kuzmann, E. 2014. Mössbauer spectroscopic study of  $^{57}\text{Fe}$  metabolic transformations in the rhizobacterium Azospirillum brasiliense Sp245. *Hyperfine Interactions* 26: 415-419.
- Tychinin, D.N., **A.A.Kamnev** 2013. Scientific Globish versus scientific English. *Trends in Microbiology* 21: 504-505.
- A.A.Kamnev**, Dykman, R.L., Kovacs, K., Kuzmann, E. 2013 Mossbauer study of the effect of pH on the rate of redox interactions between iron(III) and 4-n-hexylresorcinol in aqueous media. *Bulletin of the Russian Academy of Sciences. Physics* 77: 722-725.
- Bashan, Y., **A.A.Kamnev**, de-Bashan, L.E. 2013. Tricalcium phosphate is inappropriate as a universal selection factor for isolating and testing phosphate-solubilizing bacteria that enhance plant growth: a proposal for an alternative procedure. *Biology and Fertility of Soils* 49: 465-479.

- A.A.Kamnev** 2013. Analytical molecular and biomolecular spectroscopy: Basics and applications. *Spectrochimica Acta Part A: Molecular and Biomolecular Spectroscopy*. 100: 1-2.
- A.A.Kamnev**, Tugarova, A.V., Selivanova, M.A., Tarantilis, P.A., Polissiou, M.G. and Kudryasheva, N.S. 2013. Effects of americium-241 and humic substances on *Photobacterium phosphoreum*: bioluminescence and diffuse reflectance FTIR spectroscopic studies. *Spectrochimica Acta Part A: Molecular and Biomolecular Spectroscopy*. 100: 171-175.
- A.A.Kamnev**, Tugarova, A.V., Kovacs, K., Kuzmann, E., Biro, B., Tarantilis, P.A., Homonnay, Z. 2013. Emission ( $^{57}\text{Co}$ ) Mossbauer spectroscopy as a tool for probing speciation and metabolic transformations of cobalt(II) in bacterial cells. *Analytical and Bioanalytical Chemistry*. 405: 1921-1927.
- Bashan, Y., **A.A.Kamnev**, and de-Bashan, L.E. 2013. A proposal for isolating and testing phosphate-solubilizing bacteria that enhance plant growth. *Biology and Fertility of Soils*. 49: 1-2.
- A.A.Kamnev**, Grigoryeva, O.P., Fainleib, A.M., Kuzmann, E., 2013 Mossbauer spectroscopic study of FeII-doped sulphonated poly(ether-urethane)-styrene-acrylate copolymer. *Hyperfine Interactions*. 218: 67-70.
- A.A.Kamnev**, Tugarova, A.V., Tarantilis, P.A., Gardiner, P.H.E., Polissiou, M.G. 2012. Comparing poly-3-hydroxybutyrate accumulation in *Azospirillum brasiliense* strains Sp7 and Sp245: The effects of copper(II). *Applied Soil Ecology*. 61: 213-216.
- A.A.Kamnev**, Tugarova, A.V., Biro, B., Kovacs, K., Homonnay, Z., Kuzmann, E., Vertes, A. 2012,  $\text{Co}^{2+}$  interaction with *Azospirillum brasiliense* Sp7 cells: a  $^{57}\text{Co}$  emission Mossbauer spectroscopic study. *Hyperfine Interactions*. 206: 91-94.
- A.A.Kamnev**, Tugarova, A.V., Kovacs K., Homonnay, Z., Kuzmann, E. and Vertes, A. 2012. Aspartic acid interaction with cobalt(II) in dilute aqueous solution: A  $^{57}\text{Co}$  emission Mossbauer spectroscopic study. *Hyperfine Interactions*. 206: 101-104.
- A.A.Kamnev** .2010. Nanobiophysics: fundamental and applied aspects. (Minireview & Conference report, in Russian.) *Rossiiskie Nanotekhnologii* (Nanotechnologies in Russia). 5: 109-110.
- A.A.Kamnev**, Kovacs K., Dykman R.L., Kuzmann E., Vertes A. 2010. Investigation of iron(III) interaction with alkylresorcinols in aqueous solutions: Oxidative degradation of microbial autoregulators. *Bulletin of the Russian Academy of Sciences Physics*. 74: 394-398.
- A.A.Kamnev**, Grigoryeva, O.P., Kuzmann, E. and Vertes, A. 2009. Mossbauer spectroscopic study of sulphonated poly(ether-urethane) linear ionomer doped with iron species. *Hyperfine Interactions*. 190: 95-100.
- A.A.Kamnev**, Kovacs, K., Kuzmann, E. and Vertes, A. 2009. Application of Mossbauer spectroscopy for studying chemical effects of environmental factors on microbial signalling: Redox processes involving iron(III) and some microbial autoinducer molecules. *Journal of Molecular Structure*. 924-926: 131-137
- A.A.Kamnev**, Sadovnikova, J.N., Tarantilis, P.A., Polissiou, M.G. and Antonyuk, L.P. 2008. Responses of *Azospirillum brasiliense* to nitrogen deficiency and to wheat lectin: A Diffuse Reflectance Infrared Fourier Transform (DRIFT) spectroscopic study. *Microbial Ecology*. 56: 615-624.
- Kovacs, K., Sharma, V.K., **A.A.Kamnev**, Kuzmann, E., Homonnay, Z. and Vertes, A. 2008. Water and time dependent interaction of iron(III) with indole-3-acetic acid. *Structural Chemistry*. 19: 109-114.
- A.A.Kamnev** 2008. FTIR spectroscopic studies of bacterial cellular responses to environmental factors, plant-bacterial interactions and signalling. *Spectroscopy*. 22: 83-95.
- A.A. Kamnev**. Physicochemical approaches to studying plant-growth-promoting rhizobacteria. In: Ahmad I. et al. (Eds.). *Plant-Bacteria Interactions. Strategies and Techniques to Promote Plant Growth*. Wiley-VCH, Weinheim, FRG, 2007 (*Invited Chapter, in press*).
- A.A. Kamnev**. Metals in soil *versus* plant-microbe interactios: biotic and chemical interferences. In: Barka E.A., Clément Ch. (Eds.). *Plant-Microbe Interaction*. Blackwell Publ., Oxford, U.K., 2007 (*Invited Chapter, in press*).
- A.A.Kamnev**, A.V.Tugarova, L.P.Antonyuk, P.A.Tarantilis, L.A.Kulikov, Yu.D.Perfiliev, M.G.Polissiou, P.H.E.Gardiner. Instrumental analysis of bacterial cells using vibrational and emission

- Mössbauer spectroscopic techniques. – *Anal. Chim. Acta*, 2006, vol. 573-574, p. 445-452..
