Dr. Francisco Choix Ley  
CIBNOR, Mexico

Dear Francisco,

On behalf of your advisors and the juries of your thesis we wish to congratulate you for the outstanding academic performance that you showed in both executing the research work and the formal public presentation of the thesis.

This thesis is one of the best doctorate thesis that has been done in our group in the last two decades. Even if the regulations of the graduate school of CIBNOR did not permit a formal Honorific Mention of the research, we wish you to know that we would have recommend it if it was permitted. We wish that other graduate students will take this work as an example.

This was a research very well done.

We wish you success in your future endeavors and hope that you will be successful in your new career as a researcher.

Sincerely,

Dr. Luz E. de-Bashan
